

INSTRUMENTATION TECHNICIAN

P&O Maritime is a global company providing specialist maritime service solutions through ownership, operation and management of a fleet of specialised vessels for customers' long term requirements.

The Company is currently seeking to recruit an **Instrumentation Technician**; reporting to the Instrumentation and IT Manager.

This is an exciting opportunity to become part of the Instrumentation Team. You will be responsible for the delivery of instrumentation support services onboard the Marine Institute Research Vessels. The role also involves the support of IT and communication equipment, as well as operation, upkeep, maintenance and repair of scientific instrumentation equipment onboard the vessels.

This role is for a full time sea going position.

Suitable candidate will ideally have the following:

- Third Level qualification in Electronic Engineering or Marine Electronics or related fields;
- 5 years' experience in the test/maintenance of marine/scientific electronic equipment;
- Seagoing experience;
- Be computer literate and very familiar with PC based systems;
- A dynamic, flexible and operationally focused individual;
- An ability to work on their own or with minimal supervision;
- An open disposition, good organisational and communication skills.

For a full job description and to apply for the position please send your updated CV and cover letter to caroline.dowling@pomaritime.com by 20th August 2018.
